ECBC On-Site Contractor Personnel Reliability Program (PRP)

Current PRP Requirements	Actions That Can Be Taken
- Nominate a PRP Assistant to act as PRP liaison between government and contractor.	- Select individual who will serve in this position (preferably on site or within close proximity of Edgewood but not required). When PRP is established, the ECBC PRP Certifying Official will appoint individual in writing.
- Drug testing (initial and random annual)	- Establish a random drug testing program with a non-government facility. PRP requires individuals be tested within six months prior to PRP certification and random annual after certification.
- Personnel Security: PRP requires individuals to have a favorably adjudicated investigation within 5 years.	- Submit personnel security investigation if individual doesn't have one or if current one is close to or over 5 years old. Lowest level allowed is NACLC for CPRP; SSBI for BPRP.
- Completion of PRP-required training.	- Complete ECBC required PRP training per ECBC policy memo (copy available). Most are available on ECBC Intranet; may also attend ECBC Surety Training Days held in Jan/Jul.

ECBC On-Site Contractor Personnel Reliability Program (PRP)

Current PRP Requirements

- Contractor's personnel manager or representative (designated in writing) will screen individuals' personnel records for potentially disqualifying information as required by AR 50-1/AR 50-6.

NOTE: ECBC PRP Monitor can meet with contractor PRP Assistant or contractor representative(s) to provide guidance on the PRP process and identification of PRP Potentially Disqualifying Information (PDI).

Actions That Can Be Taken

- Select individual who will perform these duties if other than the contractor personnel manager.

ECBC On-Site Contractor Personnel Reliability Program (PRP)

Current PRP Requirements

- Medical Surveillance/Evaluation (initial and annual)

- CDC approval (required for BPRP only).

Actions On Hold

- Medical exams can be conducted by government on-site medical facility and are not scheduled until individual's PRP screening is in process by ECBC PRP Certifying Official.

- Paperwork for CDC approval is submitted by the ECBC Surety Office once individual has been approved as a BPRP candidate by ECBC Directorate management.
